

VENKATA NARAYANA G V

Full Stack Developer (Fresher)

☎ 7010919624 | ✉ venkatnarayana727@gmail.com | 🌐 <https://github.com/venkatanarayana15> | 📍 Chennai, India

SUMMARY

Aspiring Full Stack Developer with practical experience in React, Node.js, Express, and Zoho Catalyst. Completed a 3-month Zoho incubation focusing on REST APIs, CRM integration, authentication, and cloud-based application development. Strong in CRUD operations, backend logic, and Git-based workflows.

SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js

Backend: Node.js, Express.js, Zoho Catalyst Functions, RESTful APIs

Database: MySQL, Zoho Catalyst Data Store

Authentication: Zoho Catalyst Auth

Cloud & Platforms: Zoho Catalyst (Functions, Data Store, Auth, File Store), Vercel

Tools: Git, GitHub, VS Code, Postman

Programming: Python (Basics)

WORK EXPERIENCE

Zoho Corporation

10 / 2025 – 02/2026

Incubation Trainee

Catalyst Department

- Built full-stack applications using React, Node.js, Express, and Zoho Catalyst
- Developed and deployed Catalyst Functions, REST APIs, and CRUD modules
- Integrated Zoho CRM and external APIs with Catalyst-based applications
- Worked with Catalyst Data Store, Authentication, and File Storage services
- Followed Git-based workflows for version control and deployment

Web Development Intern, Eagle Tech IT Solutions

07 / 2024 - 08 / 2024

Technologies: HTML5, CSS3, JavaScript, React.js, Node.js

- Developed and deployed static websites within tight timelines.
- Independently handled design, development, and hosting.
- Gained practical experience in DNS configuration and deployment.

PROJECTS

- Built Harmonix Musicals, a dynamic web application featuring an administrative dashboard; integrated Catalyst Cloud Services for real-time data management and serverless backend functionality: <https://harmonix-musicals.vercel.app/>
- Built a dedicated web platform for the Valasaravakkam Samithi to manage community outreach and showcase social service initiatives: <https://valasaravakkam-samithi.vercel.app/>

Knee Osteoarthritis Detection Using MobileViT

Technologies: Python, Deep Learning, Html, Css

- Developed a Mobile-ViT-based deep learning model to classify knee osteoarthritis from X-ray images.
- Implemented image preprocessing, segmentation, and classification techniques.
- Achieved an **F1-score of 0.96** with a lightweight and interpretable solution.

ACHIEVEMENTS

- Participated in a tree plantation drive, planting over 200 saplings (Jun 2023).
- Awarded 10 certificates for regular attendance during school education.

EDUCATION

B.Tech – Information Technology

2025

Meenakshi College of Engineering, Chennai, **CGPA: 7.9**

Higher Secondary (12th)

2021

Good Shepherd Matriculation Hr. Sec. School, **85%**

Higher Secondary (11th)

2020

Good Shepherd Matriculation Hr. Sec. School, **75%**

Secondary School (10th)

2019

Good Shepherd Matriculation Hr. Sec. School, **82%**

INTERESTS

- Actively involved in social service initiatives with the Sathya Sai Seva Organisation, including food distribution, medical camps, and participating in Sai Bhajans.
- Exploring electronic devices and gadgets.
